

“Thank you so much! You made the registration process **completely painless.**”

—Debra Korngold,
Social Sensibility

About LicenseLogix

LicenseLogix was founded to help new and existing businesses quickly and easily obtain the proper licensing. States, counties, and municipalities are becoming stricter with enforcing business licenses but the requirements for these licenses frequently change and can vary greatly among the states.

We recognize that business owners and managers value their internal resources to focus on the essentials of their operations. Compliance matters are a vital but dreaded administrative task.

Rather than in-house staff constantly monitoring license renewal dates, wasting hours navigating confusing applications or spending valuable time researching filing requirements, LicenseLogix will manage these tasks for you—faster and with proven success rates.

“As a non-USA client, we were intimidated by all the new filings we had to make, but LicenseLogix made it sound so simple. **We immediately had confidence** that you would live up to your promise. And you did.”

—Ryan Broomberg,
IPL Packaging

License Research

Let the experts determine your licensing needs.

Business licensing requirements can vary from state to state, county to county, and city to city.

Our expert team will:

- determine what licenses, permits, and registrations your business needs
- help you navigate the frequently changing regulatory requirements
- quickly obtain correct information, applications, and filing instructions
- identify supporting documents and all state, county, or city fees

License Filings

We help you secure and maintain all required business licenses, permits, and tax registrations.

Whether your business operates as a multi-state operation or in a single location, we will prepare and file all licenses applications.

Our professionals will:

- help you secure and maintain all required business licenses, permits, and tax registrations
- guide you through the entire licensing process and determine what corporate and legal documents to submit
- complete and submit application forms to the licensing authority
- proactively communicate with licensing authority on your behalf to achieve fast results

License Assessment

We ensure your business is fully compliant within all jurisdictions.

We produce a comprehensive report containing complete information about your current license portfolio as well as applications and instructions on how to obtain the licenses you need.

Our expert team will:

- research all the licenses and permits your business needs at the federal, state, county and municipal level
- verify license status and renewal dates for licenses
- identify gaps in your license portfolio and provide accurate applications to quickly become compliant.

License Verification

Verify that all your existing business licenses are valid.

We help your business avoid unnecessary fines or penalties.

Our professionals will:

- verify if your current licenses are in good standing
- identify and remind you of renewal dates
